The Artist The Artist

The Artist The Artist

Bisi Obateru is a world music fusion artist using his music as an intersection for movement and philosophy, he is a globetrotting performer, producer, explorer, and songwriter.

He created his first demo Lust with David Kieffer of Life Of Dillon and completed it with Chez Gonzalez which made it to the YouBloom Music Awards in Dublin in 2012.

His second song Remember-San Francisco which he claims to have written first, highlighted the talents of Norwegian Actress Anne Cecilie Ukkelberg, Reggae Prime Minister, Dapper Dan, and Sana Langema. While it was filmed on Haight Street, The French Cyclists who cycled around the 7 continents in 3 years happened at one of the locations and decided to use the song as a soundtrack in their San Francisco episode.

Bisi also Djs under the moniker AfroBisi, he mixes his original productions in the afrobeat/worldbeat genres with artists he loves and dances to.
